buying a home; one which you can call yours and take an interest in? Do you realize what you are throwing away every year? Hent for 10 years pays for a home. Are you waiting for houses to get cheaper and at the same time paying an enormous rent for the privilege of paying the landlord's board bill? Do you know that it is estimated that there are at present about 15.000 families in Memphis who are waiting for homes and now living in rooms or any place to get in out of the weather? Have you ever stopped to think how long it will take to build houses for all these people? At the present rate it will take about five years to meet the demand, and this demand growing all the time. Have you the money to build a home for yourself? Even if lumber gets a little cheaper, will labor go down? Also, do you know where you can borrow money to build with? De you know anyone who has money who is building moderate-priced homes to sell? (Consider this.) During the next five years the man who rents will pay 50 to 100 per cent on a home in rent receipts and have nothing. We are offering below a few homes at moderate prices which can be bought cheaper than rent after the cash payment is made, and you can rent part of the house to help pay for it.

LANDS AND FARMS. Country Home
